01

A Glorious Journey

“Stay true to our roots and innovate with heart.”

A Historical Overview of the Department

- In 1900, Dr. Paul Unschuld, a German physician, established Tongji Hospital in Shanghai, specializing in general surgery.
- In 1947, Professor Qu Fazu assumed the position of Chief of the Surgery Department, marking the beginning of a new era of development for the department.
- In 1955, the entire Shanghai Tongji Hospital relocated to Wuhan, with the General Surgery Department following suit.
- In 1993, the General Surgery Department initiated the establishment of subspecialties, leading to the official founding of the Department of Gastrointestinal Surgery, with Professor Yang Chuanyong appointed as its inaugural director.

The exterior view of Bao Long Hospital in
1916

The Gastrointestinal Surgery Center at Tongji Hospital

The Gastrointestinal Surgery Center at Tongji Hospital is the hospital's earliest established specialized department. It forms a critical component of the first batch of national key disciplines in general surgery and the Ministry of Health's national clinical key specialty in general surgery. The center is committed to the surgical diagnosis, treatment, and research of gastrointestinal diseases.

Prof. Fazu Qiu, a renowned people's medical scientist and academician of the Chinese Academy of Sciences

人民医学家——裘法祖

[1914-2008]

Medical Sage-Qiu Fazu
Medizinisches Genie- Qiu Fazu

近一个世纪的人生岁月里，裘法祖院士毕生致力于中国医疗卫生事业发展，在医疗实践、医学教育和医学科学研究等方面集大成于一身，被誉为“人民医学家”。

In his century-long life, academican Qiu Fazu was dedicated to China's cause of medical care, teaching and research and made great contributions. With great achievements behind him, he commanded the respect of people and earned an honorable title of "People's Doctor".

In seinem langen Leben hat sich der Akademiker Qiu Fazu der Weiterentwicklung Chinas medizinischer Versorgung, Lehre und Forschung verschrieben. Seine Beiträage zur Grundlegung und Entwicklung der Chirurgie in China haben ihn zu einem prominenten Repraesentanten Chinas medizinischer Spezialisten werden lassen, ein Vorbild fuer Chinas Intellektuelle und ein geliebter "Arzt der Menschen".

1914年	出生于浙江杭州
1936年	上海同济大学医学院学习
1939年	德国慕尼黑大学医学院医学博士
1945年	德国都尔市立医院外科主任
1946年	同济大学中美医院外科教授、主任
1978年	武汉医学院副院长兼器官移植研究所所长
1981年	武汉医学院院长
1985年	同济医科大学名誉校长
1993年	中国科学院(生物学部) 学部委员
2000—2008年	华中科技大学同济医学院名誉院长

同济医院杨传永教授荣登首届“江城金口碑医生”榜首

资料来源: 本站 发布者: 管理员 时间: 2016-10-12 浏览量: 13778 分享:

金杯、银杯，不如百姓的口碑；金奖、银奖，不如患者的夸奖。今年7月，由楚天都市报联合湖北省卫生计生宣教中心，推出首届“江城口碑医生”大型公益评选活动。经广大市民投票与专家评审，30名德技双馨的医务工作者当选首届“江城口碑医生”，其中10人为“江城金口碑医生”，同济医院杨传永教授以票数第一荣登“江城金口碑医生”榜首。

10月10日，楚天都市报报道了同济医院杨传永教授如何帮助患者与疾病斗争，如何维护患者生命的质量与尊严，如何成为患者及其家人信赖与爱戴的健康守护神的故事。

在许多患者眼中，同济医院普外科73岁的杨传永教授有点与众不同 - 别人不敢做、不愿做的手术，他会毫不犹豫地接下来；患者能不吃药和不做检查解决的，他就尽量不开药、不让做检查；每一次坐诊，不管有多晚，总是将病人全部看完才下班吃饭.....

Ranked first on the inaugural list of "Jiangcheng Golden Word-of-Mouth Doctors"

The names of patients are meticulously recorded in the notebook that he carries with him at all times.

02

The Current Remarkable Status

“Promoting High-Quality Development through Collaborative Innovation”

The current status and developments of the Gastrointestinal Surgery Center at Tongji Hospital

- The Gastrointestinal Surgery Center at Tongji Hospital comprises five major wards with a total of 247 beds and 15 independent medical teams.
- The center handles over 60,000 outpatient visits annually, discharges nearly 8,000 patients per year, and performs approximately 7,000 inpatient surgeries annually. Notably, grade IV surgeries account for more than 60% of all discharged patient procedures. Additionally, the center conducts over 5,000 major laparoscopic surgeries annually, placing it among the national leaders in this field.
- The medical staff consists of 39 doctors, including 12 senior physicians, 16 associate senior physicians, 7 doctoral supervisors, and 15 master's supervisors.
- The center boasts two National Science Fund for Distinguished Young Scholars awardees, one National Science Fund for Excellent Young Scholars awardee, one Ministry of Education New Century Excellent Talent, and one National Health Commission Outstanding Contribution Expert.

The Expert Team in Gastrointestinal Surgery

Prof. Junbo Hu
President of Tongji
Hospital

- Professor Yuan Zonghui serves as the Deputy Secretary of the Party Committee, President of Tongji Hospital affiliated with Tongji Medical College, Huazhong University of Science and Technology, and President of the Second Clinical College. He holds a Doctor of Medicine degree, is a chief physician, a second-level professor, and a doctoral supervisor. Professor Yuan is a recipient of the Special Government Allowance from the State Council, a mid-aged and young expert with outstanding contributions recognized by the National Health Commission, and an outstanding talent selected under the Ministry of Education's New Century Program.
- He is a member of the Gastrointestinal Group of the Chinese Medical Association's Surgery Branch, Vice President of the Hubei Medical Association, Director of the Hubei Society of Parenteral and Enteral Nutrition, and a member of the Hubei Society of General Surgery. Professor Yuan has successively presided over eight projects funded by the National Natural Science Foundation of China and three sub-projects of the 973 Program. He has been awarded the Second Prize of the National Science and Technology Progress Award (ranked fourth) and the First Prize of the Hubei Science and Technology Progress Award (ranked first).
- In addition, Professor Yuan serves on the editorial board of the Chinese Journal of Experimental Surgery, as Deputy Editor-in-Chief of the Journal of Huazhong University of Science and Technology (Medical Science Edition), Deputy Editor-in-Chief of the Journal of Abdominal Surgery, and as a member of the editorial board of the Journal of Clinical Surgery. He has edited several influential books, including "Surgery" (10th Edition, Digital Edition), "Abdominal Surgery," and "Clinical Nutrition Support and Therapy."

The Expert Team in Gastrointestinal Surgery

Prof. Guihua Wang
Chief of Gastrointestinal
Surgery

- Professor and Doctoral Supervisor;
- Director of the Department of Gastrointestinal Surgery, Tongji Hospital, Huazhong University of Science and Technology;
- Recipient of the National Science Fund for Distinguished Young Scholars and the National Science Fund for Excellent Young Scholars;
- Vice Chairperson of the Gastrointestinal Cancer Committee of the Chinese Anti-Cancer Association, Standing Committee Member of the Peritoneal Tumor Committee, Member of the Anorectal Surgeons Branch of the Chinese Medical Doctor Association, and Deputy Chairperson of the Xinjiang Production and Construction Corps Surgeons Group of the General Surgery Branch;
- Main research interests include tumor metabolism and immunity, as well as the mechanisms of tumor invasion and metastasis;
- Has undertaken eight projects, including the National Key Research and Development Program, NSFC Distinguished Young Scholars Program, NSFC Key Projects, NSFC Excellent Young Scholars Program, NSFC General Projects, and NSFC Youth Fund;
- Published numerous research articles as first or corresponding author in prestigious journals such as "Cell", "Nature Cell Biology", "Journal of Clinical Investigation", "PNAS", "Science Advances", and "Nature Communications".

The Expert Team in Gastrointestinal Surgery

- Professor of Gastrointestinal Surgery, Chief Physician, and Doctoral Supervisor at Tongji Hospital, Huazhong University of Science and Technology;
- Director of the Gastrointestinal Tumor Research Institute;
- Recipient of the National Science Fund for Distinguished Young Scholars;
- Recipient of the Special Government Allowance from the State Council;
- A leading advocate of membrane anatomy and its surgical applications;
- Has performed over a hundred public surgical demonstrations both domestically and internationally.

Prof. Jianping Gong
Former Director of
Gastrointestinal Surgery

The Expert Team in Gastrointestinal Surgery

Prof. Zhixin Cao

Former Director of
Gastrointestinal Surgery

- Chief Physician and Doctoral Supervisor;
- Vice Director of the Gastrointestinal Tumor Institute, Tongji Hospital, Huazhong University of Science and Technology;
- Standing Committee Member of the Anorectal Surgeons Branch, Chinese Medical Doctor Association;
- Standing Committee Member of the Minimally Invasive Surgery Expert Committee, Chinese Society of Clinical Oncology;
- Member of the General Surgery Branch, Chinese Medical Doctor Association;
- Member of the Inflammatory Bowel Disease Professional Committee, Anorectal Surgeons Branch, Chinese Medical Doctor Association;
- Vice Chairman of the Anorectal Surgery Professional Committee of the Central China City Cluster;
- Vice Chairman of the Colorectal and Anorectal Surgery Branch, Hubei Medical Association;
- Vice Chairman of the Colorectal Cancer Professional Committee, Hubei Anti-Cancer Association;
- Vice Chairman of the Gastric Cancer Expert Committee, Hubei Clinical Oncology Society;
- Standing Committee Member of the Laparoscopic Surgery Branch, Hubei Medical Association.

The Current Status of High-Quality Development: Specialized Discipline Rankings

普通外科	
排名	医院名
1	中国医学科学院北京协和医院
2	复旦大学附属中山医院
3	四川大学华西医院
4	中国人民解放军总医院
5	上海交通大学医学院附属瑞金医院
6	华中科技大学同济医学院附属同济医院

2019	2020	2021	2022	2023
7	7	6	6	6

Over the past five years, the discipline has consistently achieved high rankings in the Fudan University Ranking of Best Specialty Reputations in Chinese Hospitals.

The Current Status of High-Quality Development in Clinical Sub-Specialties

Departmental Specialized Clinical Techniques: Membrane Anatomy-Based Surgical Approaches

Three Critical Advancements in Surgical Practice:

1. Enhancing Patient Outcomes: Breaking the Perceived Curse and Nightmare

The first advancement aims to save more patients by dispelling the misconception that "it is better not to operate, as surgery may accelerate metastasis." This breakthrough has transformed patient care and outcomes.

2. Minimizing Surgical Blood Loss: A Paradigm Shift for Surgeons

The second advancement, driven by membrane anatomy techniques, has revolutionized surgical procedures, leading to minimal or even zero bleeding. This innovation spares surgeons from navigating through blood and tissue, significantly improving surgical precision and safety.

3. Embracing Scientific Rigor: Reshaping Surgical Practices

The third advancement focuses on liberating surgical practices from non-scientific, unscientific, pseudo-scientific, and anti-scientific influences. By consistently applying evidence-based and scientifically validated methods, we are reshaping our surgical field with greater integrity and efficacy.

- National Standardized Diagnosis and Treatment Training Base under the Thousand Talents Plan of the Colorectal Cancer Committee of the China Anti-Cancer Association

The Current Status of High-Quality Development in Clinical Trials

Serial No.	Project name	Type of project	Number of proposed groups	Clinical trial progress	Study duration
one	A prospective, multicenter, randomized, controlled study comparing the clinical efficacy of proximal gastrectomy versus total gastrectomy after SOX combined with anti-PD-1 neoadjuvant therapy for locally advanced upper gastric cancer	This hospital was the sponsor	404 cases (main center + sub-center)	7 were screened, 5 were enrolled (main center) and 1 was screened (sub-center).	2024.01-2028.12
2	To compare the efficacy of cardonilizumab (AK104) combined with SOX versus tislelizumab combined with SOX in the first-line treatment of locally advanced or metastatic gastric cancer	This hospital was the sponsor	106 cases	(Ethics review documents have been submitted)	2025.01-2029.01
3	A multicenter, single-arm clinical study of cetuximab combined with anti-PD-1 and mFOLFOX in the treatment of RAS/BRAF wt locally advanced or metastatic right colon cancer	This hospital was the sponsor	45 cases +11 cases (main center + sub-center)	No patients were enrolled	2022.10-2028.10
4	A prospective clinical study of vedecitumumab combined with immunization and S-1 regimen in the perioperative treatment of HER2-positive locally advanced gastric cancer	This hospital was the sponsor	34 cases	No patients were enrolled	2023.12-2028.12
5	A prospective, single-arm, single-center clinical study of envolumab (PD-L1) combined with XELOX in the neoadjuvant treatment of PD-L1 K162 hypomethylated locally advanced MSS colon cancer	This hospital was the sponsor	36 cases	No patients were enrolled	2023.01-2027.01
6	An observational clinical study of fuquinitinib combined with XELOX regimen and PD-1 inhibitor in the conversion treatment of initially unresectable colorectal cancer	This hospital was the sponsor	30 cases	No patients were enrolled	2024.01-2026.12
7	To evaluate the prospective, safety and efficacy of pressurized intraperitoneal aerosol chemotherapy (PIPAC) for peritoneal metastatic adenocarcinoma	This hospital was the sponsor	20 cases	(Retrial reply, January 8)	2024.12-2027.02

The Current Status of High-Quality Development in Clinical Trials

8	Safety and efficacy of ERAS clinical pathway in totally laparoscopic total gastrectomy: a multicenter, prospective randomized controlled study	Xijing Hospital of Air Force Medical University was the sponsor	100 cases	No patients were enrolled	2024.09.06-2029.09.06
9	A multicenter, randomized, controlled clinical study on the safety and efficacy of Overlap esophagojejunostomy guided by OGT and Overlap esophagojejunostomy in laparoscopic total gastrectomy	Nanfeng Hospital, Southern Medical University was the sponsor	10 cases	No patients are currently enrolled	2022.01.01-2026.12.31
10	A prospective, phase III, randomized, controlled trial of adjuvant PD-1 antibody versus oxaliplatin plus capecitabine in patients with stage III dMMR/MSI-H colon cancer after radical resection	Sun Yat-sen University Cancer Center was the sponsor	Indefinite	Not yet enrolled	2022.01.01-2028.12.31
11	A prospective, multicenter, safe and effective single-arm clinical trial of pressurized intraperitoneal aerosol chemotherapy in the treatment of peritoneal metastatic adenocarcinoma	Guangdong Provincial People's Hospital was the sponsor	Indefinite	(In fast-track ethics review)	2025.01-2026.12
twelve	Huaier granules versus capecitabine in preventing recurrence and metastasis of stage II colorectal cancer after radical resection: a prospective, multicenter, randomized, parallel controlled study	Fudan University Cancer Center was the lead unit	26 cases	(Pending ethics review)	2024.12-2030.01
13	A multicenter, prospective, open-label, randomized controlled study on the efficacy and safety of Huaier granules versus SOX regimen in preventing recurrence/metastasis after radical gastrectomy for stage II-III gastric cancer	Wuhan Union Hospital was the lead unit	From 30 cases	(Ethical materials being prepared by drug funders)	2024.12-2029.12

The Current Status of High-Quality Development in Clinical Trials

fourteen	14. Phase II clinical study of Mosapride citrate injection in the treatment of postoperative gastrointestinal dysfunction A multicenter, randomized, double-blind, parallel, placebo-controlled phase II clinical study evaluating mosapride citrate injection in the treatment of postoperative gastrointestinal dysfunction	Company, which was the sponsor	10 cases	Two patients were screened and none were enrolled	2024.09.23-2026.06.11
15	15 A phase Ib/II study to evaluate the efficacy and safety of IBI310 combined with sindilumab as neoadjuvant therapy for resectable colon cancer with high microsatellite instability (MSI-H) or mismatch repair-deficient (dMMR)	Inc. was the sponsor	5 cases	No patients are currently enrolled	2023.07.06-2025.12.31
16	16 A phase III, open-label, randomized study comparing perioperative Dostarlimab monotherapy with standard care in subjects with untreated T4N0 or stage III dMMRMSI-H resectable colon cancer	Inc. was the sponsor	3 cases	(Ethics passed, contract under review)	2024.12-2031.04
17	To evaluate the efficacy and safety of meropenem plaibactam for injection in the treatment of adult complicated intra-abdominal infections, a multicenter, randomized, double-blind, positive controlled, parallel-designed phase III clinical trial	Company, which was the sponsor	10 cases	(Ethics passed, contract under review)	2024.12-2027.12
18	A study of the safety and effectiveness of using Hinggit bovine pericardial anastomosis reinforcement membrane to reinforce the tissue at the anastomosis site for hemostasis	Inc. was the sponsor	40 cases	(Project approval under review)	TBD

The Current Status of High-Quality Development in Research Projects

- The department has undertaken more than 50 national and provincial-level scientific research projects, including:
 - - Three sub-projects of the Ministry of Science and Technology's 973 Program
 - - Two Distinguished Young Scholars Funds and one Excellent Young Scholars Fund from the National Natural Science Foundation of China (NSFC)
 - - Two projects under the National Key Research and Development Program
 - - Two projects supported by the Ministry of Education's New Century Excellent Talents Program
 - - Two key projects and over 40 general and youth projects funded by the NSFC

The Current Status of High-Quality Development in Scientific Research Achievements

- Stable and specialized research teams have been established in the fields of cell cycle regulation, tumor initiation and progression, tumor metabolism and immunity, and neuro-oncology. Our research findings have been published in prestigious journals such as Cell, Nature Cell Biology, Cell Stem Cell, JCI, PNAS, and Science Advances. In addition to advancing fundamental research, we emphasize clinical translation. In 2023, the value of technology transfer reached 20 million yuan. Currently, several significant clinical studies are ongoing, with multiple projects in various stages of translational development.

Key Journals for Publishing Fundamental Scientific Research

The Department of Gastrointestinal Surgery places significant emphasis on the clinical translation of research findings.

The Current Status of High-Quality Development in Scholarly Publications and Academic Contributions

The Current Status of High-Quality Development in Science and Technology Awards

- First Prize of the Ministry of Education Natural Science Award: Molecular Mechanisms of Tumor Metastasis and Targeted Reversal (2002, ranked fourth)
- First Prize of Hubei Provincial Science and Technology Progress Award: Theory and Methodology for Analyzing Human Asynchronous Cell Cycle (2004, ranked first)
- Second Prize of National Science and Technology Progress Award: Application of Molecular Targeted Therapy for Tumor Metastasis (2012, ranked fourth)
- First Prize of Hubei Provincial Science and Technology Progress Award: Innovation and Application of Key Technologies for Precision Diagnosis and Treatment of Gastric Cancer (2024, ranked first)

胃肠外科新增医疗组管理办法

（试行版，更新于 2022 年 11 月）

为保证医疗质量和科室可持续发展，特制定选拔医疗组长条例。

一、分院区新增医疗组长条件：

- 1、获聘医疗系列副高级职称及以上（不含内聘职称）。
- 2、能够独立开展胃肠外科常规四级手术，具有单独领导和运行一个医疗组的能力。
- 3、个人提出申请，经科室核心小组、科室资深顾问和医疗组长等人员讨论审核通过。

二、主院区新增医疗组长条件：

- 1、获聘正高级职称（具备医疗系列副高级职称及以上，不含内聘职称）。
- 2、个人提出申请，经科室核心小组、科室资深顾问和医疗组长等人员讨论审核通过。
- 3、符合医院返聘条件，身体健康且能够完成临床工作量的教授可继续担任医疗组长。

胃肠外科核心小组

- The Department Director Responsibility System with Secretary Participation and Core Group Collective Decision-Making: The department director assumes overall responsibility, coordinates, and supervises operations; deputy directors have clearly defined roles and responsibilities. Each deputy director oversees a specific sub-specialty, manages a designated ward, and executes departmental tasks.

Prospects for High-Quality Development: Departmental Culture and Its Role in Advancing Excellence

- Unite and Collaborate to Leverage the Leadership Role of Core Human Resources
- Promote Equality and Respect, with Full Consideration for the Career Development Prospects of Young Talent
- Pursue Excellence by Encouraging Innovation
- Enhance Employees' Sense of Belonging and Well-being

Openness, Fairness, Impartiality

Prospects for High-Quality Development: Strategic Focus on Lean Operations

- Optimize Resource Allocation to Enhance Productivity
- Enhance the Quality and Efficiency of Medical Services
- Ensure Compliance with Laws and Regulations, Upholding Professional Standards
- Align Performance Evaluation with Public Hospital Metrics to Drive Improvement

Conducted a Collective Review of Treatment Plans for
Patients with Complex and Critical Conditions

Prospects for High-Quality Development: Fostering Moral Integrity and Cultivating Talent

同济医院胃肠外科申请留校博士生评分细则（试行版） （2022年11月17日核心小组会通过）

- 以下评分所有统计材料为博士期间成果，主动提出博士延期毕业而非因为论文盲审不通过者，统计博士期间所有研究成果。
- 毕业留院博士生4年内需要获得国家自然科学基金项目1一项，培训选留期3年内未获得国家自然科学基金项目者延期一年转正，第四年仍未获得国家自然科学基金资助者，科室建议另行择业。

A. 评分细则

一、文章和专利（满分60分）

注：文章及专利获得满分者直接留院，不在进行其他分数累计，但是受否条款限制。

(1) 中文核心期刊：1分/篇

(2) 中文权威期刊：2分/篇

(3) SCI期刊：

- 1) Nature、Cell、Science、Lancet、BMJ、JAMA、NEJM期刊：60分/篇；
- 2) Nature、Cell、Science、Lancet、BMJ、JAMA、NEJM期刊子刊（联盟刊物除外）、JCI、JEM、EMBO J、Blood、Hepatology、J Hepatology、Gut、Gastroenterology、Cancer Discovery、PNAS、Cancer Research、Annals of Surgery、British Journal of Surgery、Annals of Oncology、Journal of Clinical Oncology：50分/篇，最高累计计50分；
- 3) A类期刊（投稿时即为预警期刊的除外，预警期刊以中检所及中科院预警期刊目录为准）：2分/篇，影响因子，最高累计计40分；
- 4) B类及以下期刊：3分/篇，最高累计计30分。

注：

- 第一作者和通讯作者有效，对SCI 1-3类论文，共同第一作者/通讯作者排名第一/倒一计对应类别满分，共同第一作者/通讯作者排名第二/倒二计对应

类别分值1/2，以此类推；SCI 4类论文，只计排名第一和排名最后的第一作者或通讯作者。

- 中文综述不计分，英文综述只记录对SCI 1-2类杂志。
- 权威期刊仅限中华系列杂志正刊，网络电子刊及增刊不计分。
第一作者或共同第一作者且作者第一完成单位应为我科。
- 影响因素以见刊当年为准，当年没有影响因素以正式见刊前一年为准。
- Meta分析最多计算一篇，取影响因素最高一篇。
- 其他学科的相关期刊（如材料科学、交叉学科）论文提交核心小组讨论认定等级，给予相应等级积分。

(4) 专利

- ✓ 发明专利：10分/项，获得授权且第一发明人有效，累计最高计30分。如专利实现成果转化，且转化金额超过50万元，计50分。发明专利总分不超过50分。
- ✓ 实用新型专利：5分/项，获得授权且第一发明人有效，累计最高计20分。如专利实现成果转化，且转化金额超过20万元，计30分。实用新型专利总分不超过30分。

二、课题及临床研究（满分25分）

- ✓ 华中科技大学研究生项目基金 课题负责人：5分。 注：课题成果需归属于我科。
- ✓ 负责实施单中心或多中心临床研究，个人或协助上级医师完成临床研究的设计、注册、伦理和研究过程，并有研究直接相关的领域内A类及以上第一作者论文发表：10分/项，最高累计不超过20分。注：相关论文在“论文及专利”部分另外积分。

三、校级或院级书面表彰（满分10分）

- ① 校级表彰：每项3分
- ② 院级表彰：每项2分

注：a.同一年同一名目的奖励只算一次，博士期间。（三好研究生、优秀研究生干部、社会活动积极分子不重复计分）

b.其中运动类、娱乐类表彰同类型项目只计1分

四、在校期间其他类突出表现（满分5分）

注：由学生本人提出书面申请并附相关证明材料，本项由科室核心小组认定并酌情给分。

B. 否决条款：

- ✓ 未能完成学校和医院的博士培养计划；论文未通过盲审，不能按时答辩者；
- ✓ 不符合医院人事处留院条件要求；
- ✓ 在读期间有严重的违法、违纪行为；
- ✓ 科室核心小组成员依据确切事实，坚决反对留校；
- ✓ 进行民意测验超过半数反对者。

- Graduation: Rigorous Admission and Graduation Standards with Multi-Level Internal and External Oversight
- Post-graduation Employment: Develop Detailed Evaluation Criteria for Selecting and Retaining Postgraduate Students, Ensuring Fairness, Impartiality, and Transparency

Prospects for High-Quality Development: Promoting Robust and Diverse Exchanges

- Brand Academic Conferences: "China Gastrointestinal Endoscopy Summit", "Advanced Training on 'Membrane Anatomy' in Gastrointestinal Endoscopy", "Minimally Invasive Gastrointestinal Surgery Live Broadcast Week", etc.
- Enhance the Collaborative System of the Departmental Alliance with Multi-Level Coordination, Expand the Scope of the Alliance, and Facilitate the Integration of High-Quality Medical Resources.
- Engage in Extensive Exchanges with Domestic Partner Hospitals, Regularly Invite Leading Experts for Professional Communication, and Host the "High-Quality Development" Lecture Series.
- Establish Stable Collaborative Relationships with Renowned International Institutions to Leverage Mutual Strengths.

Summary of the High-Quality Development Initiatives in the Gastrointestinal Surgery Department at Tongji Hospital

Prioritize Team Building as the Cornerstone of High-Quality Development

Openness, Fairness, Impartiality

To solve clinical problems is the goal of high-quality development.

Remain True to Our Original Aspiration and Firmly Uphold Our Mission

Take clinical work as the fundamental for high-quality development.

Rooted in clinical practice and courageous in innovation

Taking precise collaboration as the core idea for high-quality development

Teamwork and tackling difficulties together.

**Thank you all for your
attention and support**
